Professional Summary

AI & Data Science undergraduate with practical experience in Python and application development, including data analysis, machine learning, and NLP-based systems. Comfortable translating requirements into functional solutions, testing application logic, and collaborating with teams to deliver user-focused outcomes.

Technical Skills

- **Programming:** Python
- **Software Development:** Node.js, Express.js, REST APIs
- **AI & Data:** Machine Learning, NLP, Data Analytics, Data Visualization, Power BI
- **Tools:** Git, GitHub, VS Code
- **Methodologies:** Requirement Analysis, System Analysis, Software Testing

Projects

IT Operations Command Center Node.js, Express.js, HTML, CSS, JavaScript

- Designed and built a platform to track resource requests, service assignments, and status updates across multiple stakeholder groups using structured operational workflows.
- Developed backend logic with Node.js and Express.js to manage data flow across tracking, assignment, and status-update modules.
- Created dashboards to monitor active requests and resource availability, supporting an operations-tracking workflow.

Detection and Mitigation of Hallucinations in LLM Responses Python, NLP

- Built a Python-based evaluation pipeline to systematically test LLM outputs and identify hallucinated or inaccurate content.
- Analyzed failure patterns using validation techniques to identify causes of incorrect responses.
- Applied mitigation techniques to improve output reliability across test cases.

Sakhi AI Application Python

- Built an AI-powered Python application featuring SOS alerts, medical locators, and wellness guidance logic.
- Designed application workflows with emphasis on accessibility, usability, and practical solution development.

Internship Experience

UI/UX Design Intern Zidio

- Understood product requirements and translated them into wireframes and functional user flows.
- Collaborated with the product team to refine interface designs through iterative usability improvements.

Content Creation Intern InAmigos Foundation

- Coordinated with team members to plan, create, and deliver content for awareness campaigns.
- Supported communication and engagement activities across social platforms.

Education

B.E. – Artificial Intelligence & Data Science 2023 – 2027

GSSS Institute of Engineering & Technology for Women, Mysuru CGPA: 8.1 / 10

Certifications

- Deloitte Data Analytics Virtual Internship

Achievements & Additional Experience

- Active GitHub contributor with a consistent, project-driven development history.
- Participated in hackathons focused on real-world problem solving and practical product development.
- Supported InAmigos Foundation initiatives by creating campaign content and assisting with donation-related and event coordination activities.

Core Competencies

Communication | Team Collaboration | Requirement Understanding | Adaptability | User Focus | Coordination
| Attention to Detail
